

Lemonade Studio

Testimonial

Dear Marcin,

I just wanted to take the time to write a note about the great experience that we have had working with you. Your remit was to help us create a video of a Sustainability Day with around 100 participants here in the UK; this meant that you had to:

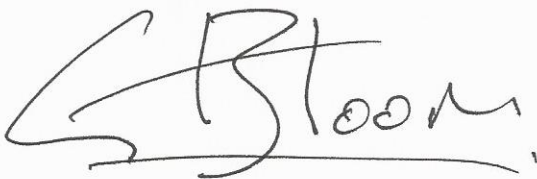

- Understand our brief
- Investigate the venue
- Fully appreciate the complexity of the recording

You produced a tremendous video for us that:

- Captured the day
- Told the story of what we were trying to achieve
- Captured the overall day and the individual conversations to camera

You also were able to produce the video in the edit that was really absolutely on the mark and then worked with us to polish it!

Great job, we would wholeheartedly suggest anyone use your services,

A handwritten signature in black ink that reads "Guy Bloom". The signature is stylized with a large, sweeping "G" and "B".
